

# ARRAYS & REPEATED ADDITION

- An array shows objects in equal rows.
- You can add the rows to find the total.
- Write the repeated addition and the total.

**1** Look at the array.

How many rows? \_\_\_\_\_

How many in each row? \_\_\_\_\_

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_

**2** Look at the array.

How many rows? \_\_\_\_\_

How many in each row? \_\_\_\_\_

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_

**3** Look at the array.

How many rows? \_\_\_\_\_

How many in each row? \_\_\_\_\_

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_

**4** Draw an array to match each:

a) 2 rows of 6

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_

b) 3 rows of 4

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_

c) 4 rows of 5

Repeated addition:

\_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Total: \_\_\_\_\_
